PROJECTS

• Portfolio website

A portfolio website is a digital showcase of your professional identity, highlighting your skills, accomplishments, and projects. It's essential for professionals in creative and technical fields like software development, design, and writing.

• Sneak Game:

Crafted an engaging snake game, challenging players to control a growing serpent and avoid obstacles. Implemented mechanics for snake movement, food consumption, and collision detection. Designed intuitive controls and user interface to ensure an enjoyable gaming session

• Text-utils Website:

Developed a dynamic website offering a collection of text utility tools and functions. Implemented features such as text manipulation, formatting, and analysis tools. Designed an intuitive user interface to ensure ease of use and accessibility.
